1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. , Claims 16, 18, 19, 32, 33, 35-40, 42-49 rejected under 35 U.S.C. 103(a) as being unpatentable over Stirniman et al US 6589641 in view of Burguette et al US 4705699 and Nohr et al US 5747550 for the reasons of record.
3. Applicant's arguments filed 16 May 2005 have been fully considered but they are not persuasive.

Applicants argue that the radiation from an Xe₂ excimer lamp is absorbed by oxygen and to avoid this problem oxygen is excluded. Applicants argue that there is no teaching or suggestion in Stirniman of combining the oxygen concentration and Xe₂ excimer lamp radiation.

However Stirniman et al teach the exclusion of oxygen by purging with nitrogen. Oxygen absorbs UV radiation irrespective of the source and Stirniman teaches the use of UV at wavelengths of 185 nm **OR LESS**. Applicants also argue that Stirniman does not teach a carbon film having a thickness of 8 nm or less. However Stirniman teaches 10 nm **OR LESS** (Col 4 lines 8-9). Applicants also argue that Stirniman do not teach dipping the lubricant in a solvent. However see Stirniman Col 6 lines 1-11 and Col 7 lines 17-20.

Finally applicants appear to argue on the basis of the results of the specification (embodiment 2) examples.

However the showing of the specification examples is not commensurate with the scope of the claims.

The examiner also notes that new claims 47-49 appear to be directed to a comparative example of the embodiment (i.e. Comparative Experiment 12).

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
